Washington Street.Rollins was severely
battered Thursday morn-
ing when his clothes
drive shaft on the cement
used by the W. E. Pick-
ering Company who are
paving on Washington street.Rollins was saved from a horrible
death by the timely action of one of
the men working on the mixer in
the building. The injured man is
a member of the mixer which had
been working properly earlier in
the morning. He had just finished
putting in some spark plugs and mak-
ing some minor adjustments when
someone, without warning, Rollins,
started the motor.The drive shaft caught on a sweat-
er which he was wearing and pulled
him down on the shaft and kept
locking him against the gears of
the machine.All of the injured man's clothes
were pulled off before the mixer was
stopped and his underwear, pants,
and shirt were completely torn to
pieces. It was a miracle almost that
he was not caught in some of the
gears and that he was not more
seriously injured.As soon as the injured man was
taken out of the mixer he was taken
to a car and rushed to Dr. W. R.
Hutchinson who dressed the wounds.
He was not able to be moved and
kept in the physician's office for
four hours after the accident.

CART TATTOO WILLS

Sept. 6. (UP)—The will
of a man who had a tattoo on his chest
is a legal document, in the opinion
of a court.
"I leave my all to Suzanne," a sea-
boarder had inscribed in pink and pur-
ple ink on his chest, and when he died
his wife tried to collect. The court
held that this, to be valid, must be
made in ink and a copy filed in
the courts.CORNER
IMPROVEDABOUT TURN AT BLOOMING-
TON AND WASHINGTON STS.
IMPROVED.An excellent improvement is being
made at the intersection of Bloom-
ington and Washington streets, as the
new concrete paving is being placed.
The corner from Bloomington onto
Washington street has been a bad one
for many years but about 25 feet is
being taken off the point in the south-
west corner which will make the turn
easier and less and will do
away with the danger that
has existed at this corner for years.
Here the traffic from the south
which turns onto Washington street
is in more or less danger from
at and west traffic on Washington
street, as well as from the danger
from making the short turn. Reports
from skidding as far north as the
corner on Washington street have been
made and with the surface a com-
plete one, there would be additional
danger from slipping on the smoother
surface. The telephone poles and
other posts in this corner are
removed and the improvement
is considerable in every way.
From the standpoint of danger
as well as the looks of the
corner.

The first of the class A trans-con-
tinental race planes arrived here to-
day when Earl Rowland, Wichita,
Kas., landed his plane on Dresser field
at 8:37.Flying a Cessna monoplane he had
taken off from Columbus, where the
race planes spent the night at 7:49
a. m., making the trip here in 1:48.
The American Moth piloted by Robert
Bake, Pittsburgh, Pa., was the
second to arrive, alighting on the
field at 8:45.W. H. Emery, Jr., piloting a Travel-
air was third when he arrived at 8:52.NORTON FIELD, Columbus, O.,
Sept. 6. (UP)—Earl Rowland, Wich-
ita in his Cessna monoplane, roared
down the runway of Norton field at
7:49 a. m. today, the first flyer to
start the second day's journey in the
transcontinental air derby from
Roosevelt field, L. I., to Los Angeles.Rowland's takeoff had been tempo-
rarily delayed because of rain and
unfavorable weather conditions re-
ported between here and Terre Haute,
Ind., where the flyers will stop to re-
fuel.Rowland was followed at one minute
intervals by 30 other flyers in the
order in which they landed here
yesterday between 11:07 a. m.—the
time of the Kansas arrival—and
6:24 p. m., when George Brill, Mon-
terey, Calif., swooped down in his
Travelair.Plans called for stops today at
Terre Haute, St. Louis and Kansas
City, where the flyers were to remain
tonight. At each stop the time of
arrival and departing will be checked.
The winner will be determined on the
basis of elapsed flying time to the
Pacific coast.Brill, last of the flyers to reach
Norton field had been reported held
back at McKeesport, Pa., officials
said 30 of the 31 men who cleared
McKeesport had reached Norton field
and that one was missing. The one
missing was believed to be Brill, but
officials could not check his whereabouts.The Californian, however, landed
at 6:24 p. m. unnoticed by the group
of attendants and newspapermen. It
was not until early this morning that
it was learned that Brill had landed.ROOSEVELT FIELD, N. Y., Sept.
6. (UP)—Start of the class "B" and
"C" transcontinental races was post-
poned today until 7 a. m. Friday, be-
cause of unfavorable weather, officials
of the race announced.At 7 a. m. the time the first plane
had been scheduled to take off, a light
rain was falling. Heavy clouds and
misty air made visibility poor. Reports
from Harrisburg indicated a
similar condition.The class B and C planes will fly
the same route followed by the class
A planes, although they will cover
more territory each day. The first
overnight stop will be Terre Haute,
Ind.; while Columbus, Ohio; host to
class A pilots last night will be a
fueling stop.

tioned with the airplane squadron at
Selfridge Field, Mich., is enroute this
week to Los Angeles, Calif., with a
picked squad to represent the army
in the annual Mitchell trophy races
which are scheduled for next week.Lt. Irvin is a son of Will Irvin of
this city and is one of the crack
fliers stationed at Selfridge Field. He
was one of twelve men picked to make
the trip and to participate in the
races, which are the big event of the
flying year for the army and navy as
well as for all other fliers.The squadron from Selfridge field
is making the trip to Los Angeles
in easy stages, stopping three nights
at various points on the route.The Mitchell Trophy is one of the
most sought in all aviation events. It
was presented by Col. William Mit-
chell, while he was assistant chief of
the Army Air Corps. The planes be-
ing sent by the Selfridge field squad-
ron are the fastest in the army, and
are pursuit planes. They have a
cruising speed of 160 miles per hour
and have made as high as 200 miles
per hour, with favorable tail winds.Only the pick of the pilots at the
field are recommended for this trip
and Lt. Irvin was one of the twelve
chosen.Stage Star Has

FATHER IS CINCINNATI
RESIDENT.CHICAGO, Sept. 6. (UP)—Miss
Katie Pullman, vaudeville actress, is
sure her baby is going to be strong
and healthy, because its father is "a
tall man" and healthy. Miss Pullman
yesterday beamingly announced ar-
rival of her son, which she says is
a eugenics baby.The baby was born here Aug. 28,
but Miss Pullman did not make the
birth known. She refused at first to
reveal the name of the baby's father,
but when told that William Diner
of Cincinnati was said to be the par-
ent, she admitted he was."He doesn't know anything about
the baby," she said. "There was no
reason to tell him. We agreed that
the child's support was to be mine
entirely.""We met in Cincinnati two years
ago and we talked of my desire for
another baby. I have one boy, born
to Edward Smith whom I divorced
seven years ago. I did not wish to
be married again.""Mr. Diner and I had tests made
and we seemed to be well matched. So
we decided I was to have the baby.""My great ambition is to have the
boy grow up a great athlete. I am
going to train him myself and I know
just how I'm going to do it. He will
be a vegetarian for one thing."Miss Pullman said she saw no rea-
son for censure in her action.Repair Work On

FOR RELEASE
OF PRISONERSFORMER TRUSTY AT PENAL
FARM GUILTY OF RECORD
ALTERATION.

FIFTEEN FREED ILLEGALLY

Supt. Howard Not Ready To Divulge
Name of Suspect. Final Record
Check Is Completed.Responsibility for the alteration of
records in the office of the Indiana
State Farm which permitted the pre-
mature release of fifteen men who
were serving sentences at the farm,
has been fixed definitely by Ralph
Howard, superintendent, he announced
Wednesday.The superintendent, together with
members of the board of state chair-
ties, which has supervision over all
penal institutions, has completed an
investigation which lasted more than
three weeks, to determine who was
guilty of altering the records.The inquiry Howard said, substan-
tiated Howard's first suspicion, that
the act was that of a trusty who was
assigned to clerical work in the office
while serving a term at the farm in
May, June and July. It was revealed
by the inquiry that fifteen men had
been released before the expiration of
terms for which they had been sen-
tenced, by the act of the trusty in
changing their commitment records so
they showed the men sentenced
for shorter terms than actually had
been given to them.Howard said he was not yet ready
to divulge the name of the trusty
who changed the records as he has
been released from the institution
and has not yet been apprehended. It
is understood the man received prom-
ises of money from the inmates who
were favored by his action. Reports
have been heard that some were
promised him ranging all the way
from \$200 to \$1,000 for obtaining the
early release of some inmates. Whether
he actually received any money or
not is not known.Of the fifteen prematurely freed,
four have been arrested and returned
to the institution to serve the remain-
der of the terms for which they were
sentenced. It has not been decided
whether they will be required to
face charges of escaping from the
farm.The fourth man to be apprehended
was Jesse Elmore, sentenced to the
farm for a year in the circuit court
of Hendricks county last January on
a charge of chicken stealing. Elmore
was released early in July, the office
records having been changed to read
that he had been sentenced for only
six months. He was arrested this
week in Urbana, Illinois.

HORSE SHOW BIG FEATURE

Indications Are That This Year's Fair
Will Be The Best Yet Held. Big
Crowds Expected.The fifth annual Putnam county
fair will open next Wednesday, Sep-
tember 12, just six days from today,
and will close on Saturday night,
September 15.Committees have been hard at work
this summer preparing for the fair
and will be "bigger and better" than
ever before. It is reported that there
will be more entries in the livestock
and poultry department than in the
past. This same report also holds
good in the domestic science depart-
ment and for the township displays.One of the outstanding features of
the fair will be the horse show. This
attraction will be held each evening
on the public square and some of the
finest horses in this section of the
country will be exhibited.Members of the various commit-
tees stated today that all plans for
the opening of the fair were practi-
cally completed and that the only
thing that would handicap the fair
next week will be rain. Last fall
there was a down pour some time
each day during the fair but even
the inclement weather failed to damp-
en interest and enthusiasm in the
fair and it is believed that this will
hold true this year should there be a
daily deluge.State Officials

DAY OBSERVED AT THE
STATE FAIR.INDIANAPOLIS, Sept. 6. (UP)—
State officials were honored at the
Indiana fair today, when governor's
and legislator's day was celebrated.At noon, the girls' school of econ-
omics, in session during fair week,
served luncheon to the officers. To-
night Mrs. L. G. Vannice, of Amo,
in charge of the girls' home economics
class, will award scholarships to Pur-
due university and normal schools of
the state.Today also was Purdue day at the
fair. The highlights of the Purdue
celebration was the annual meeting
of the Purdue agricultural alumni as-
sociation. Between 300 and 500 mem-
bers were to be here for the meet-
ing.The principal speaker at this meet-
ing was to be Prof. John H. Skinner,
who recently became director of the
Purdue agricultural experiment sta-
tion.The affair was to be given a col-
lege aid by Keller Beeson and Ros-
coe Frazer, White county. The form-
er was in charge of Purdue songs
and the latter was yell leader.Clear weather continues to allow a
large attendance at the fair and vis-
itors from the far away counties, who
desired to make a complete round of
the grounds in one day, have not been
hampered by the weather.

MRS. CHANDLER DIES

Mrs. Bessie Chandler, wife of Luther
Chandler, died at her home in
Coatesville Wednesday afternoon at
three o'clock. She was born and
raised in that section of the county
and was a life-long resident there.The funeral services will be held
Friday morning at ten o'clock from
the home in Coatesville and inter-
ment will be in the L. O. O. F. cem-
etery there.Surviving the deceased are the
husband, Luther Chandler, and one
adopted child.

SHORTAGE IN MILLIONS

ATLANTA, Ga., Sept. 6. (UP)—
Shortage in the Southern Baptist
home mission board accounts admin-
istered by Clinton S. Carnes, miss-
ionary treasurer, probably will reach
\$1,000,000, a statement of church of-
ficials said today.The statement was in effect a re-
port to the 3,000,000 members of the
denomination concerning the disap-
pearance of Carnes and succeeding
developments.The \$1,000,000 estimate is not an
official estimate from the auditors,
the report said, advising it would be

schools of Greencastle will open for
the fall term.Warren T. Yount, superintendent,
recently assigned the teachers to
their various schools. Juniors have
cleaned and prepared each of the
ward buildings and the high school
building for the new year. As one of
field stated, "everything is ready
except the boys and girls and most
of them are about in the notion to re-
turn to their books and the class-
rooms."The new Second Ward building will
not be ready for occupancy until
about the first of October, but ar-
rangements have been made to take
care of the pupils of this school at
the other buildings for two or three
weeks.Monday morning will see the usual
rush at the downtown bookstores.
This will be over by Tuesday, how-
ever, and regular work will get un-
derway by at least Wednesday.Prof. Frank N. Jones is the new
principal of the high school, succe-
eding F. L. Busenberg, who resigned
last spring and who has gone to
Crown Point. Prof. Oscar Thomas
will again head the Junior high as
he has done very efficiently for the
past several years.Supt. Yount today made the fol-
lowing statement:
Grades 10, 11 and 12, of the high
school will meet at 8:30 in the audi-
torium for further instructions.The freshmen will meet in the As-
sembly room No. 6, which is at the
south end of the corridor. It is then
planned to release all children for
trucks at 12:15 for the day. Grades
10, 11 and 12, children are asked to
get their books immediately after
dismissal.The beginning children in the Sec-
ond ward, will all meet at the Third
ward for a week or two. The other
grades of the Second Ward, will meet
at the high school.All children who will be six years
old by November 1, are entitled to
start Monday.Letters have been sent out by
Supt. Yount, calling a general teach-
ers' meeting Saturday morning at ter-
o'clock. This will be followed by
meetings under the direction of the
principals for high schools and grade
buildings.Supt. Yount will meet Friday morn-
ing at eight o'clock with the grade
principals for organization plans.There will be a meeting of truck
drivers and Mr. Yount Friday night
at 7 o'clock for final instructions.

KIWANIS LUNCHEON

Several good speakers were on the
regular weekly program of the Ki-
wanis luncheon which was held at the
Christian church Thursday noon with
the Rev. R. H. Bruner in charge.Rev. W. Henry McLean spoke on
the impressions he had received from
his visits to other Kiwanis clubs, and
the Rev. C. Howard Taylor, and Dr.
John Carmack of Indianapolis also
spoke.The program committee announced
that they were endeavoring to bring
to Greencastle an educational pic-
ture, "Gambling with Death." This
picture is put out by the railroads
and is very descriptive.

Police Are Told.MUNCIE, Ind., Sept. 6. — Mrs.
Irene Moyer, 24 years old, a Terre
Haute police character, last night ad-
mitted to city detectives that Mrs.
Myrtle Miller, 36, of Muncie, who
was murdered last Friday night or
Saturday morning, was last seen
alive with Charles (Blinky) Beasley,
also of Terre Haute, last Friday
night.She signed a 1,000 word statement
in which she stated that she and Ho-
mer Patterson, who escaped from
Terre Haute policemen when the
Moyer home was raided last Monday
night, were ordered from their auto-
mobile by Beasley, who said that he
wanted to be alone with Mrs. Miller,
whom they had picked up at her
home here a few hours before."Patterson and I got out and Beas-
ley drove the car down the road and
out of sight," her statement reads.
"He was gone at least fifteen min-
utes, maybe longer, then came back
and picked us up. He got out of the
front seat. Myrtle was not there."Mrs. Moyer said that when she in-
quired about Mrs. Miller, Beasley re-
plied: "We had a fuss and she went
on to a friend's.""That is no way to leave Myrtle,"
Mrs. Moyer said she told Beasley in
the presence of Patterson. "She came
with us and she is going back with
us.""No," she said Beasley replied to
her, "there is no use going back after
her. She said to tell you kids good-
bye and she would see you in Terre
Haute on her brother's birthday."Mrs. Moyer could not tell the au-
thorities the exact spot where she
last saw Beasley and Mrs. Miller to-
gether, but she said it was at least
eight or ten miles, maybe farther,
south of Muncie, which would place
the scene of the crime in Henry coun-
ty. She will be taken over the route
tomorrow morning at her own re-
quest, detectives said, as she seems
confident of being able to point out
the location.Beasley, who was brought to Muncie
with Mrs. Moyer, has not been
questioned at length concerning the
murder. He is being held incommu-

reports, the regular concert season by
the band reached its conclusion with
last week's program.The band will play daily during the
Putnam county fair next Wednesday,
Thursday, Friday and Saturday. These
concerts will bring the 1928 summer
season to a close, it is believed, much
to the regret of many music lovers
in the city and community.

AL TO SEE U. S.

ALBANY, N. Y., Sept. 6. (UP)—
Gov. Alfred E. Smith, whose life was
bounded for more than a quarter of
a century by New York City and
largely by the East Side, will see the
country really for the first time on
the extended campaign trip being
mapped out for him as Democratic
presidential candidate.If elected, he will visit Washing-
ton for the second time in his life.
The governor attended a prohibition
conference at the White House a few
years ago, but got only a passing
glimpse of the capital city.The Democratic candidate has never
been abroad. In this respect, his
career is a contrast to that of his Re-
publican opponent, Herbert Hoover,
who has traveled all over the face of
the globe, and has lived for long pe-
riods of time in foreign countries.The first time he was anywhere
near the south was in the spring when
he took a trip to Asheville, N. C. He

**POTTER'S
SHOE STORE**

"I am so happy that the last pimple is gone—"

WITHOUT this handicap, there returns the very natural confidence, joy and cherished pride of possessing a clear skin.

Men and women both justly covet admiration, and you can expect such satisfaction only if you are happy in a clear, unblemished skin.

The sure way to reach this state is through the blood.

Red blood cells are Nature's elements for building and sustaining the body.

Without plenty of rich, red blood, there can be no strong, sturdy, powerful men, or beautiful, healthy women.

You know a clear skin comes from within. Correct the cause—through the blood—and pimples, boils, eczema and that sallow complexion will disappear.

Thousands have regained their strength and charm by taking a

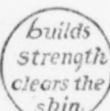

few bottles of S.S.S.—Nature's own tonic for restoring the appetite—building strength—and clearing the body of so-called skin troubles.

All drug stores sell S.S.S. in two sizes. Get the larger size. It is more economical.

MULE MARKED UNSTEADY

WARRENSBURG, Mo., Sept. 6 (UP)—As goes the cotton market so goes the mule market, in the opinion of Walter Jones, local mule dealer. Now, said Jones, the mule market is unsteady because the outcome of

the cotton crop and the price for cotton are unsteady.

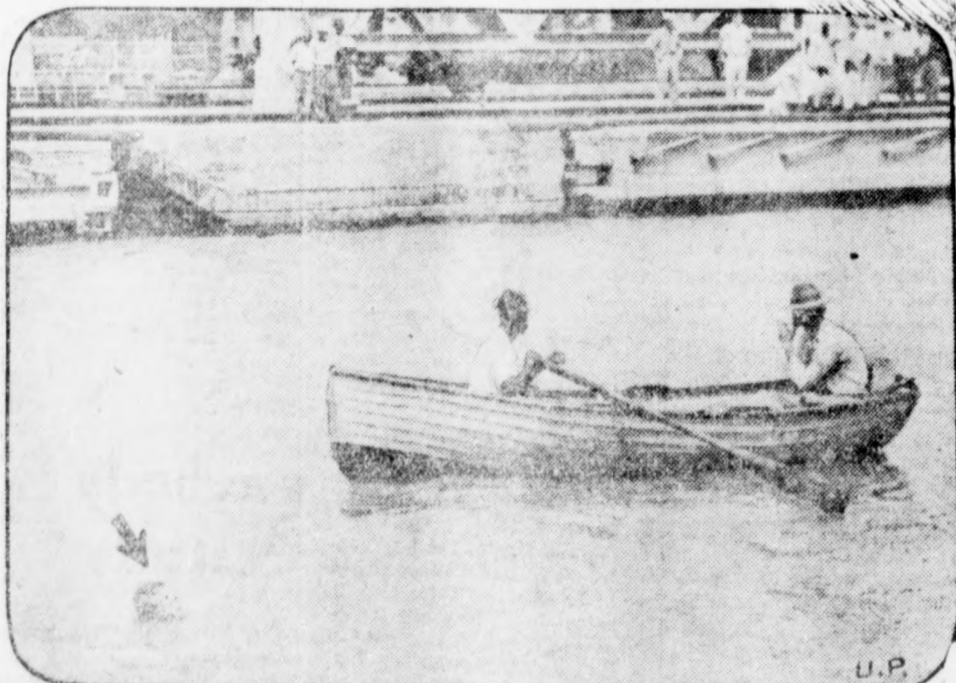

The only section using mules to any extent according to Jones, is in the South, where cotton growers employ negroes to do most of their work. The negroes prefer mules to horses, Jones said.

IDENTIFY BANDITS

ST. LOUIS, Mo., Sept. 6. (UP)—Three Indianapolis witnesses today partially identified Charles Phayer, held here, as one of the bandits who robbed the Broadmoor country club of \$206,000 on May 30. Ben Baratti, a companion of Phayer, was not identified.

ST. LOUIS, Mo., Sept. 6. (UP)—Officers from Indianapolis were expected here today to attempt identification of Charles Phayer and Ben Baratti as participants in the \$206,000 Broadmoor country club robbery there May 30.

Phayer is held here on a charge of carrying concealed weapons, while Baratti, who said he was an El Paso, Tex., deputy sheriff, was held on suspicion of robbery.

A watch found on Phayer was believed to be part of the Broadmoor loot.

ALL OVER INDIANA

BEDFORD—Limestone from quarries near here is being used to rebuild Shadow Lawn, beautiful estate at Long Beach, N. J. and was used as a summer White House by Woodruff for re-election as president. The house on the estate was burned last year.

HOUSEWIVES STRONG FOR HOOVER

This placard is being displayed conspicuously by housewives throughout the nation. Women caught the habit of working for Mr. Hoover during the war and still retain their enthusiasm for his leadership. These signs are being distributed in large quantities by the National Women's group of the Republican party headed by Mrs. A. T. Hert.

Youth of America Backs Hoover,
Says Helen Wills, Tennis Star

HELEN WILLS has accepted the appointment as Chairman of the Sports Division of the Women's National Committee for Hoover from Mrs. F. Louis Slade, National Chairman of the organization.

"Am I voting for Hoover?" she said. "Yes. And why. For the same reason that countless other young people throughout the country are voting for him. It is because they realize that Mr. Hoover possesses just those qualities that will make him a great president."

"He said in his speech of acceptance that he wishes to carry the spirit of the youth of the nation into the government. 'Youth,' he said, 'is today pulling at the traces as never before, and is willing to pull a full load. Youth's eagerness contains a more earnest desire than ever to be of service.'"

"All youth can admire Herbert Hoover because of his sincerity, intelligence and great industry."

"His achievements, in the past, have been marked with success because of his ability for organization and his wonderful powers of perseverance. His life is a story to fire the imagination and admiration of every young person in the country."

"He spoke of 'Youth's eagerness for service.' He was guided in his own youth by this idea. He has proved since, at home and abroad, that he is a great man."

"May Youth everywhere, by voting for Hoover, show that its ideals are of the highest and that it has the earnest desire 'to be of service.'"

CRIME TOTALS INFLUENCED BY TEMPERATURES

SIX-YEAR SURVEY SHOWS AR-
RESTS ADVANCE WITH
THERMOMETER.

NEW YORK, Sept. 5. (UP)—Tem-
perature apparently has a marked ef-
fect on crime, according to a study
covering a period of six years, just
completed by Edwin G. Dexter. The
survey was made in New York and
Denver.

The number of arrests, Dexter
found, increased regularly with the
rise of temperature. But at 85 de-
grees crimes of violence began to de-
crease. Extremely hot weather may
make a man feel like fighting but it
also takes away the desire to put his
incination into action.

Studies made in many countries
seem to indicate that temperature
has its effect on the kind of crime
committed. Assault and battery,
murder and crimes against morals
reach their maximum in July and
August. In winter, crimes against
property are in the ascendancy. John
Lewis Gillin, professor of Sociology
of the University of Wisconsin, has
given the following explanation:

"In summer, people get out of the
houses more, contacts are more nu-
merous, the opportunities for disa-
greement are greater, and consequen-
tly, there is a greater possibility of
personal violence than in winter. On
the other hand cold indirectly pro-
duces crimes against property by
reason of the fact that in winter
economic need is greater, seasonal
occupations are closed down and,
therefore, money is scarce with
which to buy the necessities of life.
The temptations to steal are conse-
quently greater than in the summer."

"There is some evidence to sup-
port the theory that heat exerts an
influence upon the action of the
nervous system," Dexter said. Cloudy
weather was found to be the freest
from personal encounters due to the
depressing influence of gloomy days.
Dexter believes that murders in-
crease during excessively dry per-
iods and seemed to accompany high
winds.

ARTISTIC HERITAGE

NEW ORLEANS, Sept. 5 (UP)—
The violin-making skill of the Bentin
family will be carried on here by the
fourth generation.

The death here recently of Henry
Bentin, who had conducted the busi-
ness of his forefathers since he was
11 years old, aided for a time by his
mother, was followed by an announce-
ment that Edward Bentin, son of
Henry Bentin would continue the
trade.

Among the well known artists who
have used Bentin violins, said to be
among the world's greatest present
instruments, were Jan Kubelik, Fritz
Kreisler, Paul Kochanski, Branslaw
Huberman, Carlos Sedano, Adrian
Freiche, Juan Rubini and Albert
Spaulding.

Henry Bentin was born in Nadel,
Posen, Germany, 72 years ago. He
moved to Iowa when a child and the
family later came to New Orleans.

COATLESS CAMPAIGN

ROME, Sept. 6. (UP)—A "Coat-
less" campaign, started by the stu-
dents of Rome and sponsored by a
section of the Press, has met with
some unexpected opposition here.
Italians have always been sticklers
for etiquette in the matter of dress,
and the American habit of working
in shirt-sleeves during the torrid days
of summer has never been fully ap-
proved.

Some of the devotees of the coat-
less movement have discovered to
their surprise that the city regula-
tions forbid men to enter the street
cars carrying their coats on their
arms. Several heated prospects have
followed the injunctions of the trolly
car attendants ordering passengers
to put on their coats, and a number
of those who have refused have been
obliged to get off the cars.

The students declare they will
make the movement triumph, and
have arranged a coatless demonstra-
tion as propaganda for the new sum-
mer movement.

Back To Health! Highly Endorses Modern Medicine

Years of Stomach Trouble and Ner-
vousness Ended by Wonder-
Working Konjola.

MRS. ALICE R. ETTING

"I had no idea one could suffer so
terribly from stomach trouble and
nervousness as I did for several
years," says Mrs. Alice R. Etting, R.
F. D. Niles, Mich., "and I had given
up hope for relief, everything I tried
having failed completely.

"It was in South Bend, Ind., that
I first heard of the miraculous re-
sults following the use of Konjola the
new medicine, and I concluded
that I might as well give the remedy
a chance. Before I had finished the
second bottle all my troubles disap-
peared, and today I am enjoying the
best health I have ever known.

"A few weeks before, I was des-
perate, disheartened. Today I am
ambitious and cheerful; not an ache
nor pain, and I owe this splendid health
and surprising recovery entirely to
Konjola. What a joy it is to be able
to eat anything one likes, and to be
ready for all of one's duties. Quite a
contrast to dragging through life in
misery."

Konjola is sold in Greencastle, Ind.,
at the Owl drug store, and by all the
best druggists in all towns through-
out this entire section. —(Adv.)

MOVIES

AT THE VONCASTLE

Three motion picture notables who
contributed materially to the success
of "Wings" the aviation epic work-
ed together again at the Paramount
studio in Hollywood.

Clara Bow, star, Richard Arlen,
leading man, and William Wellman,
director, made the new drama of the
underworld, "Ladies of the Mob,"
This was the first time the three were
associated since the filming of the air
production. The picture will show at
the Voncastle Thursday and Friday.

In the story, which is a great de-
parture from the type of picture Miss
Bow has made in the past, the flap-
per star plays the role of an under-

DAIRY COW HELPS STABILIZE LAND

GENERAL FARM VALUES DECREASE 30% WHILE DAIRY
LANDS SHOW INCREASE ABOVE 1920 VALUES

LIVE STOCK FARMING MOST PROFITABLE FOR THIS COMMUNITY.

A difference of around ten bush-
els of grain to the acre from the
farms of this community often de-
termines profit and loss per acre, say
the Blue Valley Creamery Institute.
The best and cheapest way to insure
large crop yields, year after year, is
to replenish the elements of plant
food taken from the soil in ordinary
grain farming by keeping enough of
the most profitable kind of livestock
in order to have an abundance of ani-
mal manure to cover the fields, and
by growing legumes, particularly al-
falfa, because legumes have the abili-
ty to leave nitrogen in the soil.

The Institute cites a typical exam-
ple of the value of livestock as a po-
tent influence in increasing the yields
of grain crops on North Dakota farms
having similar soil types. A group of
section farms in Cass County, N. Da-
kota, were found to produce an aver-
age of 21 bushels of grain per acre
per year. A nearby section farm that
had been devoted to livestock for
about 20 years was found to be pro-
ducing 30 bushels per acre per year.
The same general crop rotation had
been followed on all of these farms
for the past five years. The average

fields for five years. The average
arms were: Wheat, 22.5 bushels;
oats, 29.65 bushels; barley, 34.5
bushels. The grain yields of the
stock farm during the same period
were: Wheat, 21.5 bushels; oats,
31.5 bushels; barley, 35.5 bushels.
In other words, under con-
ditions of location, climate, etc.,
the average acre on the stock farm
during the same period produced
Wheat, 24.5 bushels; oats, 34.5
bushels; barley, 35.5 bushels.
In other words, under con-
ditions of location, climate, etc.,
the average acre on the stock farm
was a better producer than the
average acre on the section farm.
Of the various kinds of livestock
farming in the Mississippi Valley
last 10 years have shown that
dairy farming wherein the average
hog and poultry production is
sources of income to be the most
profitable of all. This is due to
under general average of the
dairy cows, besides the substan-
tial profit themselves, the con-
stant abundance of protein, the
skimmilk which makes the field
of pork and poultry profitable.
